RE: Addendum to March 17, 2021 Math 124 and Math 126 Discipline Review Memo

I am issuing this addendum to my March 17, 2021 memorandum due to a number of questions that have been received regarding the implications of that communication in terms of prerequisite requirements outside the specific math pathway within the Business programs of study. While it is understood that Math 124 will allow students to progress directly into Math 176, questions have arisen for other courses in the business programs. For example, at some institutions where Math 126 is the usual prerequisite for Math 176, Math 126 is also a prerequisite for Economics 261. The intention of my prior memorandum for Math 124 to meet business program requirements for transfer students into programs where 126 is otherwise required and this would include courses such as ECON 101, ECON 102, ECON 103, ECON 104, ECON 105, ECON 106, ECON 107, ECON 108, ECON 109, ECON 110, ECON 111, ECON 112, ECON 113, ECON 114, ECON 115, ECON 116, ECON 117, ECON 118, ECON 119, ECON 120, ECON Business

For students transferring to a business program at UNR or UNL, completing either MATH 124 or MATH 126 will allow the student to move on to their subsequent coursework in the degree of their choosing in the respective College of Business without having to take a gateway math course. The following table provides the relevant core math requirements for the universities, indicating in all cases that MATH 124 or MATH 126 will be allowed for incoming business students who have previously completed MA Credit.

Degree Program	Core Math Requirement	What happens if student transfers?	Additional Requirement Dependent on Core Math
