BRIEFING PAPER

Handbook Revision: University Degree Requirements

BACKGROUND & POLICY CONTEXT OF ISSUE:

Current Board policy (*Title 4, Chapter 16, Section 17*) provides that a minimum of 124 credits is required for a bachelor's degree at the universities. Additional credit requirements for graduation must be defined by the institution and published in the institution's catalog. Based on a recommendation of the Academic Affairs Council, staff recommends revising the credit requirement for a bachelor's degree from 124 credits to 120 credits.

120 credits for a bachelor's degree aligns with the requirements of the Northwest Commission on Colleges and Universities (accrediting agency) and is also consistent with credit requirements in other states.

SPECIFIC ACTIONS BEING RECOMMENDED OR REQUESTED:

Amend Title 4, Chapter 16, Section 17 to provide that a minimum of 120 credits is required for a bachelor's degree at a university. (See attached Policy Proposal.)

If the proposal is adopted, existing programs with greater than 120 credits for a degree will not need to be reduced to 120 as the proposed change is for the *minimum* number of credits for a bachelor's degree.

IMPETUS (WHY NOW?):

This is brought forward at this time based on a recommendation of the Academic Affairs Council.

BULLET POINTS TO SUPPORT REQUEST/RECOMMENDATION:

- 120 credits for a bachelor's degree
 - aligns with the accreditation requirements of the Northwest Commission on Colleges and Universities;
 - is consistent with degree requirements in other states;
 - will improve graduation rates
